**Subject:** Fed Quarantine Order

Just received this. Thank you for your patience. Also, hearing word of people already leaking through screening system and ending up in states without the funneling airports. Knew it would not be perfect, but it has begun. If you do not have a funneling airport, your state PEHP programs are going to receive a survey on the following questions:

- a. Are you prepared to issue Q and I orders
- b. Do you have a housing plan for Q people?
- c. Plan on wrap around services, like food, communication, etc?
- d. Transportation to Q site from airport or otherwise?
- e. Do you have plan for EMS from Q site to hospital?
- f. Are you prepared to monitor people based on risk assessment?

Please let us know if you have questions or need support.
